PROFESSIONAL SUMMARY

Full-Stack AI Engineering graduate with hands-on experience in building intelligent automation systems using Python, FastAPI, NLP, and Selenium. Developed AI-driven test automation and anomaly detection platforms with practical exposure to backend APIs, machine learning workflows, and agent-based orchestration. Strong foundation in software development, problem-solving, and scalable application design.

EDUCATION

Bachelor of Engineering (Information Technology) **2021 – 2026**
Amrutvahini College of Engineering, Sangamner (SPPU, Pune) *Final CGPA: 8.02*

Higher Secondary Certificate (HSC) **2021**
Shramik Junior College, Sangamner *83.33%*

Secondary School Certificate (SSC) **2019**
I.E.M.S. Chandanapuri *82.80%*

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, SQL, Java (Basic), DSA

Web Development: React.js, Node.js, Express.js, FastAPI, REST APIs, Streamlit

Databases: MongoDB, SQL

AI/ML: NLP, BERT, spaCy, Prompt Engineering, Agentic AI, MCP, LLM Basics

Libraries & Tools: Pandas, NumPy, Scikit-learn, Matplotlib, Git, Postman, Selenium

INTERNSHIP

Full Stack Development Intern **Jan 2025 – April 2025**
Sumago Infotech Pvt. Ltd., Nashik

- Worked on scalable web applications using MERN stack architecture.
- Developed APIs and improved frontend-backend integration workflows.

PROJECTS

AI-Powered Test Automation Platform **Sep 2025 – Mar 2026**

- Designed and built an AI-driven test automation platform for generating, executing, and exporting test cases from user requirements.
- Implemented NLP-based action extraction for converting requirements into structured test scenarios.
- Built MCP-style agent orchestration for intelligent modular workflow execution.
- Integrated Selenium for UI automation and API testing for backend validation.

NetGuard AI - Anomaly Detection System **May 2025 – Aug 2025**

- Built a real-time network anomaly detection system using machine learning models.
- Trained Isolation Forest model on CICIDS2017 dataset for intrusion detection.
- Developed backend APIs with FastAPI and interactive dashboard using Streamlit.

CERTIFICATIONS

- IBM Artificial Intelligence
- Nxt Wave Python Programming and SQL
- Nxt Wave MCP Project

ACHIEVEMENTS

- Built end-to-end AI and Full-Stack projects integrating NLP, automation, and ML workflows.
- Actively participated in coding contests, hackathons, and peer-learning activities.
